Vulnerability Assessment Report

Target: https://apnabazzar.free.nf/

Risk Score: 7.0/10 High Risk

Scan Details

Target:	https://apnabazzar.free.nf/
Scan ID:	#14
Status:	Complete
Started:	2026-11-03 11:58:58
Finished:	2026-11-03 11:59:01
Modules:	port, web, ssl, dns, cve
Total Findings:	1

Severity Summary

Critical	High	Medium	Low	Info
0	1	0	0	0

Executive Summary

A vulnerability assessment was conducted against https://apnabazzar.free.nf/ using the PyVAF framework. The scan identified 1 security findings across 5 scanning modules. The overall risk score is 7.0/10 (High Risk). 1 high severity findings were also identified and should be remediated as a priority. Detailed findings with remediation guidance are provided in the sections below.
